

**THERE'S A NEW FRONTIER OF COMMUNICATION TAKING SHAPE.  
AND IT'S IN THE FORM OF A CUBE.**

### **What is Qubeey?**

**Qubeey is an assertive communications platform that creates a paradigm shift in the way providers of products, services, and information reach consumers who have grown tired of searching for the things that interest them. It is also an interactive platform that leverages the power and reach of the Internet without relying on the dependency of a browser.**

**Qubeey allows users to connect and interact with multiple social communities and business interests from a single interface, on or off the World Wide Web. Deployed directly on the desktop, mobile-top, tablet, and soon TV, it creates a safe and secure browser-less interaction for the user. Qubeey is more than an interactive media player - it's a communications gateway providing secure access to the following features:**

- **Assertive desktop, mobile top, tablet communication**
- **Live video chatting**
- **Live broadcasting**
- **Computer to mobile device chatting**
- **Upload, store and share videos**
- **Content distribution hub**
- **Extended access across all communication devices**
- **Seamless integration with popular social communities**
- **Media player (streaming and local)**
- **And much more!**
